Acadia

Yellowstone

Country
Red

Dutch
Green

Canoxel is an attractive, long lasting composite wood siding material. It features a horizontal profile, with a natural wood grain pattern. The siding has a baked on factory finish to resist fading. All Canoxel Maintenance-free models will feature spanish cedar doors and trim.

WESTERN RED CEDAR SIDING

Valued for its rich tones and durability, Western Red Cedar is the preferred choice for those wishing to capture the natural, rustic character of wood.

A timeless choice of natural beauty.

As a natural, organic material, cedar is subject to some imperfections such as small knots and cracks. These are not considered defects - rather they add to the character of the wood.
